

CHP Questionnaire:

CHP show a great potential of more than 9,000 MW_{el} in India. It is estimated that this potential has not been realised yet by far. Additionally, existing CHP installations in India show options of improvement in layout and operation. To further speed up the CHP activities, and to know what Indian industries are doing, a questionnaire was uploaded on the website for industry members to submit information.

Though we have not received 50 entries but we announce three prize of Rs. 10,000/- each from the selected entries received so far, who have submitted the detailed data:

1. Mr. K. S. Kasi Viswanathan, Seshasayee Paper and Boards Limited, Erode
2. Mr. B. K. Misra & Mr. Akansha Nangia, Reliance Industries Limited, Hazira Manufacturing Division
3. Mr. S. N. Sinha, National Fertilizers Limited, Vijaipur

Congratulations to the winners !

We welcome the industries to submit the data as the submission date is further extended upto 30th May 2008.
