**Sub: Life Long Learning (3L) programme - Request for feedback regarding**

Dear Sir/ Madam,

The Bureau of Energy Efficiency is planning to institutionalize an information exchange and Life Long Learning platform (3L) for all professionals and enterprises which are stakeholders in the Energy Conservation Act.

The Bureau communicates presently through its two web pages [www.bee-india.nic.in](http://www.bee-india.nic.in) and [www.energymanagertraining.com](http://www.energymanagertraining.com) as well as its numerous sector task force meetings and small group activities. It has completed second year of certification of energy managers and energy auditor's as well as accreditation of energy auditing firms and interaction with a wide range of energy intensive equipment suppliers and household appliances. The Bureau is presently providing information to at least 11,000 stakeholders which may draw benefits from a market oriented implementation of the Energy Conservation Act on a continuous basis. Their need for information and discussion differ vastly.

Based on the excellent and positive experience with the small group activities on energy conservation in larger industries and the sectoral task force meetings, BEE is expanding value addition to its existing cooperations.

In order to structure future 3 L Programme, we request our stakeholders to fill out the attached form for feedback. This letter is being sent by e-mail to 11,000 stakeholders registered with BEE on the website [www.energymanagertraining.com](http://www.energymanagertraining.com). The above feedback provided by stake holder would assist us in framing and structuring an appropriate Life Long Learning (3L) programme.

**Please send the feed back by 25<sup>th</sup> August 2005.** Lucky winner will be selected by computer on random basis. The first 3 winner will be awarded Rs. 5,000/- each and next 5 winners will be awarded Rs. 2,000/- each. The result will be announced on 1<sup>st</sup> September 2005 on the website.

We once again thank you for the cooperation.
