

Observation on technical paper issue # EE 14

Whenever we post such a question, we are of course also highly interested to know, why perhaps the concept will not work, or where possible barriers pop up.

First prize will therefore be given to Mr. S. K. Sood who conveyed interesting points why the idea may not work.

All those who believe in AIEM and have given us very useful advise we congratulate for their efforts.

It has been a tough decision to pick about the many excellent contributions. The second prize goes to Mr. Harsh Malhotra providing very specific and clear points to our query. Third prize to Mr. G. Sreenivash for a crisp and to the point reply requiring only two pages of reading. Fourth prize to Mr. L. K. Sahoo who has also suggested good points to both the question and also identified the benefits to energy managers by forming AIEM. Fifth prize goes to Mr. Paritosh Nandi for his contribution.

Congratulations to all the winners! Keep up the good work.
