

Observation on technical paper issue # EE 17

First prize to Mr. S. K. Sood who starts with a good approach and first asks, what type of energy auditors are out there to take care off! Disputes some hypothesis. Recommends learning on how institute of Chartered Accountants ensures quality. In fact their rules and regulations have been our main source of information.

Mr. Sowndararajan Ramasubramaniam delivered a crisp and to the point reply for second prize. Mr. Praveen Garg also recommended a few very interesting points concerning controversial matters and receives third prize. Mr. Ajay G. Chandak is worried that a system will prevail as with Chartered Accountants and receives fourth prize. Mr. Sanjiv Arora discusses the issues that there may be different opinions about the quality of an energy audit report. BEE and experts may find a report inferior, the client may even find the report good. Fifth prize for him.

Mr. G. Subramanyam as well receives fifth prize for the best contribution about strange procedures that have been taking place as soon as an energy audit became mandatory. "Phone energy audits".

Congratulations to all the winners! Keep up the good work.
