

Aonla Unit

ENERGY MANAGEMENT POLICY

We, at IFFCO Aonla are committed to continuously improve our energy performance in all our activities, products and services.

To achieve excellence, we will strive to:

- Set energy consumption targets and monitor continuously
- Carry out process optimisation and diagnostic studies to maintain high productivity and high on stream factor to minimise specific energy consumption.
- Carry out modifications to improve energy efficiency.
- Reduce specific energy consumption by identifying areas of energy saving potential in the process
- Create awareness among employees to conserve energy and natural resources
