

**JOBS IN ENERGY MANAGEMENT DEPARTMENT OF H. & R. JOHNSON (INDIA) LIMITED,
MUMBAI**

HRJ engaged in the field of manufacturing ceramic & vitrified tiles in India. HRJ is numero uno tile company in India having four state of art manufacturing set up of its own and two joint venture units spread all across India. Average annual growth rate of the company is 25% per annum. Total turnover of the company for last financial year 05-06 was 746 crore.

HRJ is having one inhouse energy management team engaged in cutting down energy cost for all its own manufacturing and joint venture units. The team is expanding and started providing energy management consultancy to other industries. We are also in to providing consultancy services for developing CDM projects.

We are looking for an energetic , goal oriented , self driven person with excellent communication skills with the following criteria

BE/ME in electrical engineering preferably with post graduate exposure in energy management (not mandatory) from premiere institute.

Desired experience : 1 year in the relevant field , fresher may also apply.

Preference will be given to certified energy auditor from BEE.

Salary is not a constraint for the right candidate.
