

Program on “Energy Conservation awareness” for students and housewives

Theme:- *“We have not inherited this earth but we have borrowed it from our future generations and as a sensible citizen we should give them the best of resources .”*

Mahindra and Mahindra, Nasik plant ECON team under its ESOPs initiative has conducted “Energy Conservation and Save Oil Workshop” to educate school children on energy conservation. We intend that through these programs our society will become more knowledgeable on energy conservation techniques and hence contribute to the national cause of conservation of our nation’s natural resources.

We, along with Petroleum Conservation Research Association of India (PCRA) conducted interactive session of two hours each for three schools. Specific programs also presented to one group of housewives- on energy conservation at home and use of LPG , one group of driving school instructors – on inculcating good and fuel efficient driving habits to their trainee drivers and one group of our guest house attendants.

In total more than 1000 nos participants benefited from the program.

The program planned was as below,

- Environment issues & Energy conservation (Present Scenario in our country and tips on savings in home, LPG use and in vehicles)
- An audio visual presentation with cartoon films and
- A quiz for the students

Instant prizes given to students and Attractive prizes distributed to the Quiz winners.
